CONFÉRENCE

Université 
de Montréal

Dr Pascal Lavoie

MDCM. Ph.D., FRCPC

Clinician Scientist, CFRI

Assistant Professor, Partner Institute, Division of Neonatology,

Department of Pediatrics

University of British Columbia

Neonatologist, BC Children's Hospital and BC Women's Hospital & Health Centre

Immunological adaptation in the developing human

Dr. Pascal Lavoie is a Neonatologist, at the Children's & Women's Health Centre of British Columbia, Clinician-Scientist at the Child & Family Research Institute. His laboratory investigates the developing immune system. The conference will focus on molecular determinants of functional variability of immune responses in humans, on mechanisms of immunological adaptation transitioning from a fetal life to the period immediately following birth, in relation to how it impacts health and diseases in neonates.

Mardi 3 juin 2014 à 11h30
Pavillon Claire-McNicoll, salle Z-255
