

**Position: Research assistant**

CHUM research center - CRCHUM, Montreal

Starting date: flexible

The Bourgeois-Daigneault lab is looking for a research assistant. Candidates must have experience doing lab work, ideally in the field of molecular biology, and hold a diploma (M.Sc or Ph.D) in a relevant program from a recognized university. Previous experience with cloning and using the CRISPR-Cas system are assets. The candidate must be able to read, write and speak french.

The tasks will range from basic student training, experiments and animal work to administrative duties such as placing orders, sending parcels and updating protocols.

The lab is well funded and the CRCHUM is a state-of-the-art research centre located in the beautiful old port of Montreal. Our happy crew currently includes 5 graduate students who work on various facets of oncolytic virotherapy for cancer treatment. We are part of the Cancer and the Immunopathology axes, which include amazing reseach teams working on various aspects of cancer treatment, diseases, viruses and immunity. We are also proud members of the Institut du cancer de Montréal.

The salary is competitive as per the CRCHUM guidelines. This is a full-time position to be renewed yearly.

Send your CVs and cover letters directly to [mcbdaigneault@gmail.com](mailto:mcbdaigneault@gmail.com) and I will get back to you shortly.

**Marie-Claude Bourgeois-Daigneault, PhD**

Scientist; CRCHUM and Institut du cancer de Montréal

Assistant professor; Département de microbiologie, infectiologie et immunologie, Faculty of Medicine, University of Montreal
