

2^e Symposium sur la guérison du VIH HIV Cure Symposium

Inscrivez vous, c'est gratuit!

Vendredi 25 avril 2025 de 8 h 30 à 12 h

Amphithéâtre CRCHUM – R05.212 – 5^e étage
900, rue Saint-Denis – Montréal

8:30-8:35 **Mot de bienvenue / Opening remarks**
Andrés Finzi – CRCHUM – Université de Montréal
Manyu Prakash – ViiV HealthCare

8:50-9:00 **Andrew Clark**
HIV Cure; why it really matters

9:05-9:15 **Petronela Ancuta** – CRCHUM - Université de Montréal
Metformin for viral reservoir reactivation and increased recognition by anti-HIV-1 envelope antibodies

9:20-9:30 **Nicolas Chomont** – CRCHUM - Université de Montréal
HIV reservoir dynamics

9:35-9:45 **Andrés Finzi** – CRCHUM – Université de Montréal
Detecting the viral reservoir one Enveloppe at a time: Env-Flow!

9:50-10:00 **Priti Kumar** – Yale University
Hu-mice models for HIV cure research

10:05-10:25 **PAUSE-CAFÉ / COFFEE BREAK**

10:30-10:40 **Hillel Haim** – University of Iowa
The Forces that Contribute to HIV-1 Escape from Therapeutics

10:45-10:55 **Marzena Pazgier** – Uniformed Services University of the Health Sciences
HIV-1 Env vulnerabilities – A structural understanding

11:00-11:10 **Walther Mothes** – Yale University
Viral Env-Receptor interactions and membrane fusion monitored by cryoET

11:15-11:25 **Madeleine Durand** – CRCHUM - Université de Montréal
Tackling residual inflammation from viral persistence: the RESTART  clinical trial

11:30-11:40 **Shari Margolese**
A community perspective

11:45-11:50 **Mot de clôture / Concluding remarks – Andrés Finzi**
